

An axial CT scan of the human pelvis. The image is in grayscale. In the center, there is a large, dark, roughly circular area representing the rectum. This area is outlined with a thick, irregular border. The upper part of the border is colored cyan, and the lower part is colored blue. The rest of the pelvis, including the iliac bones, is visible in the background.

Atlas CTV Rectum

S. Roels, W. Duthoy, K. Haustermans
